List of Fellows of the Royal Society 1660 - 2007

The list contains the name, dates of birth and death (where known), membership type and date of election for all Fellows of the Royal Society since 1660, including the most recently elected Fellows (details correct at July 2007) and provides a quick reference to around 8,000 Fellows. It is produced from the Sackler Archive Resource, a biographical database of Fellows of the Royal Society since its foundation in 1660.

Generously funded by Dr Raymond R Sackler, Hon KBE, and Mrs Beverly Sackler, the Resource offers access to information on all Fellows of the Royal Society since the seventeenth century, from key characters in the evolution of science to fascinating lesser-known figures. In addition to the information presented in this list, records include details of a Fellow's education, career, participation in the Royal Society and membership of other societies. Citations and proposers have been transcribed from election certificates and added to the online archive catalogue and digital images of the certificates have been attached to the catalogue records.

This list is also available in electronic form via the Library pages of the Royal Society web site: www.royalsoc.ac.uk/library

Contributions of biographical details on any Fellow would be most welcome.

List of Fellows of the Royal Society 1660 - 2007

The list contains the name, dates of birth and death (where known), membership type and date of election for all Fellows of the Royal Society since 1660, including the most recently elected Fellows (details correct at July 2007) and provides a quick reference to around 8,000 Fellows. It is produced from the Sackler Archive Resource, a biographical database of Fellows of the Royal Society since its foundation in 1660.

Generously funded by Dr Raymond R Sackler, Hon KBE, and Mrs Beverly Sackler, the Resource offers access to information on all Fellows of the Royal Society since the seventeenth century, from key characters in the evolution of science to fascinating lesser-known figures. In addition to the information presented in this list, records include details of a Fellow's education, career, participation in the Royal Society and membership of other societies. Citations and proposers have been transcribed from election certificates and added to the online archive catalogue and digital images of the certificates have been attached to the catalogue records.

This list is also available in electronic form via the Library pages of the Royal Society web site: www.royalsoc.ac.uk/library

Contributions of biographical details on any Fellow would be most welcome.
