

## Catalysis making the world a better place

Wednesday 10 – Thursday 11 June 2015

Organised by Professor Graham Hutchings FRS, Professor Richard Catlow FRS, Professor Christopher Hardacre, Professor Matthew Davidson

DAY 1				DAY 2			
Is catalysis really green?		Can catalysts be designed using theory?		Energy as a key resource – what role can catalysis play?		Renewable resources – what role can catalysis play in their sustainability?	
Chair: Graham Hutchings		Chair: Richard Catlow		Chair: Christopher Hardacre		Chair: Matthew Davidson	
09.00	Welcome by meeting organiser/scene setting.						
09.05	Graham Hutchings <i>Introduction</i>	13.30	Richard Catlow <i>Introduction</i>	09.00	Christopher Hardacre <i>Introduction</i>	13.30	Matthew Davidson <i>Introduction</i>
09.15	<i>Discussion leader comments</i>  Michel Che Abhaya Datye Elizabeth Rowsell Ekkehard Schwab	13.40	<i>Discussion leader comments</i>  Nora De Leeuw Frances Illas Rutger van Santen Veronique Van Speybroeck	09.10	<i>Discussion leader comments</i>  Ray Allen Martin Atkins Sue Ellis Johannes Lercher	13.40	<i>Discussion leader comments</i>  Robert Davis Jacob Moulijn Roberto Rinaldi Roger Sheldon
09.55	Discussion	14.20	Discussion	09.40	Discussion	14.20	Discussion
10.30	Coffee	15.00	Tea	10.30	Coffee	15.00	Tea
11.00	Discussion cont'd	15.30	Discussion cont'd	11.00	Discussion cont'd	15.30	Discussion cont'd
12.30	LUNCH	17.00	CLOSE	12.30	LUNCH	16.30	Overview/Future directions
						17.00	CLOSE
