

Faraday Discovery Fellows

Wrap-around support package 2025 – 2026

We offer a comprehensive package to support Faraday Discovery Fellows to build world-leading research groups in the UK.

As part of our programme, you will also have the chance to shape our mentoring, training and networking activities to align with your career ambitions.

Faraday Discovery Fellows have access to our entire catalogue of engagement events and opportunities, with some training and networking also open to post-doctoral researchers funded by your award. Activities are designed to be flexible and relevant to your position as an emerging research leader, but are not mandatory.

There is also the option to use your fellowship funds at your host organisation to procure tailored training for yourself and your team.

YEAR 1+	YEARS 2+
