60% of respondents said that having a long term partner made them less likely to move between countries.

Amongst those with children, family reasons are cited as a reason for:

- 92% of respondents' choice to stay in the UK
- 43% of respondents' choice to move back to the UK

79% of respondents said that having children made them less likely to move between countries.

Finding suitable employment for a partner is the most frequently cited barrier to mobility amongst those with a partner except for short term mobility.
