The UK government has committed to increase public R&D investment from £14.8 billion in 2021/22 to £20 billion per year by 2024/25. It has also outlined its plans to ‘level up’ the UK, including a focus on infrastructure, innovation and energy security, supporting in the delivery of net zero by 2050.1

What does this ambition to increase investment in UK research and innovation mean for Wales?

This document provides an insight into the current research and innovation landscape in Wales to inform discussions around how people across the nation can contribute to and share the benefits of R&D investment in the UK.

How much is spent on R&D activity in Wales?

FIGURE 1

R&D spend in Wales, 2020.2

4.7% of the UK’s population is based in Wales.3

£1.5 billion
2.4% of UK total
£476 per capita

Who performs R&D in Wales?

FIGURE 2

Percentage distribution of R&D spend in Wales and UK wide, 2020.4

*ONS data for the private non-profit sector spend in Wales is unavailable or too small to present.

Note: The 2020 Gross Domestic Expenditure on R&D data should be treated as estimates. The ONS have outlined these are the current best estimates, but they are improving their methodology, including making improvements to the measurement of business and higher education sectors.
Where does R&D take place in Wales?

**FIGURE 3**

Map of R&D activity in Wales.

---

**KEY**
- Universities
- Science parks
- Incubators and accelerators

---

**11,300 professional, scientific, and technical workplaces**

9 universities

9 science parks

11 business incubators and accelerators

*Includes professional, scientific and technical workplaces as defined by ONS coding (69-75).

Note: The R&D sites listed may not be exhaustive.
How is R&D in Wales funded and supported?

R&D is funded and supported in many different ways. This includes direct investment from public, private, charitable and overseas sources, as well as indirect measures that encourage further private investment such as R&D tax credits.

Examples of R&D funders in Wales.

**Higher Education Funding** (Higher Education Funding Council for Wales) 2021 – 2022
- £113 million
- 3.6% of UK share
- £35.65 per capita
- UK average: £46.78 per capita

**R&D tax credits**
- £135 million
- 2.0% of UK share
- £42.59 per capita
- UK average: £98.24 per capita

**Research councils**
- £86 million
- 2.3% of UK share
- £27.13 per capita
- UK average: £56.11 per capita

**Innovate UK**
- £40 million
- 2.6% of UK share
- £12.62 per capita
- UK average: £22.75 per capita

**The Royal Society**
- £1.03 million
- 0.9% of UK share
- £0.33 per capita
- UK average: £1.64 per capita

* Grants are mostly made to higher education institutions but may also include some payments made to individuals and companies. The figure is by location of the lead organisation, however some schemes may collaboration with institutions outside of the UK.

Note: Per capita figures calculated using ONS mid-2020 populations.
FIGURE 5

How much did each of the research councils invest in Wales in 2021 – 2022? 

Total value of grants awarded to Wales from each research council

- Arts and Humanities Research Council: £1m
- Biotechnology and Biological Sciences Research Council: £1m
- Engineering and Physical Sciences Research Council: £13m
- Economic and Social Research Council: £16m
- Medical Research Council: £11m
- Natural Environment Research Council: £2m
- Science and Technology Facilities Council: £6m
- Pan-UKRI*: £33m

% of funding awarded to Wales from each research council

- Arts and Humanities Research Council: 1.8%
- Biotechnology and Biological Sciences Research Council: 0.5%
- Engineering and Physical Sciences Research Council: 2.1%
- Economic and Social Research Council: 9.8%
- Medical Research Council: 3.0%
- Natural Environment Research Council: 1.4%
- Science and Technology Facilities Council: 4.3%
- Pan-UKRI*: 6.0%

*Pan-UKRI includes COVID Fund for International Collaboration (FIC), Future Leaders Fellowships (FLF), Global Challenges Research Fund (GCRF), Industrial Strategy Challenge Fund (ISCF), Newton Fund, Strategic Priorities Fund (SPF) and Strength in Places Fund (SIPF).

Note: This excludes non-competitive grants, such as funding for UKRI institutes.
There is no R&D without people

A thriving R&D environment in Wales requires a talented workforce to perform research and young people in the pipeline who are equipped with the skills needed in the future economy.

**FIGURE 6**

Proportion of A level in Wales in science subjects, 2022.56

![Graph showing proportion of A level entries for science subjects](image)

Selected non-science subjects are shown as an example of uptake in other disciplines. English includes entries for English Language, English Literature and English Language and Literature. Includes students of all ages who have undertaken A Levels at all examination centres (including further education institutions and independent schools).

**FIGURE 7**

Undergraduate science students in Wales, 2020 – 2021.17

![Circle diagram showing percentage of students studying science subjects](image)

* Total undergraduates in Wales does not include students studying at the Open University who are based in Wales.

Note: The HESA science grouping includes subjects like medicine, nursing, and agriculture which may not be included in other definitions of STEM (science, technology, engineering, and maths). Includes CAH Level 1 01-11, 13 and 26 (geography – natural sciences).
Proportion of Welsh graduates working in the each of the regions and nations across the UK? 18

Note: sample only includes surveyed graduates who remained in the UK for work after graduation. Proportion may not add up to 100% due to rounding.
How many people are employed in R&D in Wales?

7,000 staff employed in R&D at Welsh companies in 2020. 2.5% of the UK total.¹⁹

6,300 research staff employed at Welsh universities in 2021/22. 4.2% of the UK total.²⁰
