

Meeting of Minds Conference – 31 May 2017
6-9 Carlton House Terrace, London

9.30am	Registration	
10.00am	Welcome Address	
10.15am	Plenary Session 1	
	<p>10.15am Dr Charlotte Stagg <i>The plastic brain: the neural changes underpinning learning of motor skills in health and disease</i></p> <p>10.45am Dr Pau Figueras <i>Black holes and singularities: beyond Einstein's gravity</i></p>	
11.15am	'Research Spotlights' & Networking Hour	
	<p><i>A series of short, 2 minute presentations highlighting the work of these researchers followed by an extended break for networking and discussion.</i></p> <p>Dr Paul Williams Dr Alistair Boyer Professor Nicholas Smith Dr Elsa Zacco Dr Lily Asquith Professor Atsufumi Hirohata Dr Kirsti Ashworth Dr Philipp Voigt Dr Sangeeta Santra Dr Jennifer Steeden</p>	
12.15pm	Parallel Session 1	
	<p>Science of the Small</p> <p>12.15pm Dr Martin How <i>Seeing the world through the eyes of animals</i></p> <p>12.30pm Dr Richard Hobbs <i>Ultrafast nanoscale electron emitters</i></p> <p>12.45pm Dr David Glowacki <i>Beyond Video Games: Virtual reality for interactive biomolecular design</i></p> <p>1pm Dr Paul Webb <i>Manipulating single molecules on surfaces: a path to unlocking the secrets of catalysis</i></p>	<p>Science for Global Development</p> <p>12.15pm Mr Marcos Barreto <i>Large-scale data fusion of Brazilian socioeconomic and public health databases</i></p> <p>12.30pm Dr James Kirkbride <i>Neither here nor there: understanding psychosis risk amongst migrants and their descendants</i></p> <p>12.45pm Dr Asel Sartbaeva <i>Vaccines without refrigeration</i></p> <p>1pm Dr Nicholas Casewell <i>Venom induced coagulopathy: how does snakebite disrupt haemostasis?</i></p>

1.15pm	Lunch	
2.15pm	Parallel Session 2	
	Resilience	Networks
	<p>2.15pm Dr Kevin Waldron <i>Using excess or deficiency of essential metals to combat pathogenic microbes</i></p> <p>2.30 pm Dr Jesmond Dalli <i>ILC-3 and PCTR1 Govern Tissue Resolution Status and Macrophage Response in Infectious Inflammation via Neuronal Control</i></p> <p>2.45pm Dr Tim Newbold <i>Has land use pushed terrestrial biodiversity beyond the planetary boundary?</i></p> <p>3pm Dr Tamar Makin <i>Phantom limb representation in the brain</i></p>	<p>2.15pm Dr Anita Zeidler <i>Glassy networks under pressure</i></p> <p>2.30pm Dr Garrett Hellenthal <i>Using DNA to infer human history</i></p> <p>2.45pm Dr Omer Dushek <i>Reducing complicated signalling networks into simple effective networks in immune cells</i></p> <p>3pm Dr Gloria Lopez-Castejon <i>Can dying cells prevent inflammation?</i></p>
3.15pm	Break	
3.45pm	Plenary Session 2	
	<p>3.45pm Dr Gijbert Werner <i>Deep evolutionary history of cooperation rise and breakdown</i></p> <p>4.15pm Dr Rebecca Notman <i>Drug Delivery Through Skin</i></p>	
5.00pm	Close	
6.00pm	Drinks reception - St James' Palace
